

Stainless steel illuminated handrail solutions for internal and external lighting applications

The new Brink range of bespoke illuminated handrails combines lighting and safety for internal and external applications.

Manufactured in 316-grade stainless steel, Brink handrails are beautiful, stylish, robust, and corrosion-resistant. With six rail styles, four installation methods and a variety of finish options - including polyester powder coating to any RAL colour - there is a Brink handrail for every application.

Applications: internal and exterior stairwells in rail, education, healthcare, leisure and commercial applications.

- Six rail styles, four installation methods and a variety of finish options
- Manufactured in 316-grade stainless steel
- Asymmetric or symmetric distributions
